Suitable to store vaccines, medicines and laboratory products at 2˚C to 8˚C temperature range.
Application could be found at pharmacies, pharmaceutical factories, hospitals, CDC, clinics, laboratories.
Leading technologies for Safer storage and Higher temperature stability.

MC-5L416   MC-5L756   MC-5L1006

Safer Storage
Superior Temp. uniformity& Precise control

- Microcomputer temperature control.
- Dual display, temperature & Humidity
- Temperature accuracy 0.1℃
- Temperature variation ≤2℃
- Temperature uniformity ± 1.5°C.
- USB port, temp. record traceable.
- Backup battery.
- Audible & visual alarm systems.
Advanced Technologies
Reliable & stable performance

- International famous inverter compressor.
- Top cooling system.
- DC turbo fan.
- Built-in air duct.
- LBA forming technology.
- Micro-channel condenser.
- Patented D+ heat exchange technology, high efficiency and energy saving.

### Humanized Design
Friendly for daily use

- Electric heating glass door.
- Door self-close.
- Adjustable shelves with label holder.
- Porthole.
- Adjustable LED light.
- Wide voltage range design.

Top cooling system

Strong cooling airflow from the top to the bottom, works as an air curtain to block the external hot air from entering the refrigerator when door is opening, so as to prevent the temperature in the cabinet from rising rapidly, also contributes better temperature uniformity performance.
Improves temperature uniformity performance by 40%.
Max interior temperature difference ±1°C.
Prevent temperature rising rapidly when door is opening.
Energy consumption 47% lower than similar sized normal pharmacy refrigerator.

Velocity Magnitude (m/s)

Rotation speed (rpm)

Power Consumption (W)

Inverter compressor Enables operational control at very low speed

Compressor Number of Rotation
Chamber temperature
Energy saving
Time

Normal compressor ON/OFF Operation

Inverter Compressor

Improve cooling performance.
Reduce energy consumption by 15%.
Decrease noise level.
20% higher quick-cooling ability.
Interior temperature variation within 2°C.

INVERTER

DC Turbo Fan

IDecrease noise level by 8%.
Integrated DC Turbo Fan works with smaller vibration and higher efficiency.
Safer for daily use.
No strong electric component in chamber, safer & more reliable.

Built-in air duct   Tradi onal air duct

Max storage line   VS   Invalid space
Max storage line

Built-in air duct

Increase the effective interior space by 10%.
Less interior space occupancy.
Built-in air duct plus the Top cooling design, ensure temperature in
the top of chamber is cool enough for storage.

■ Dual Display

Display real-time Temperature & Humidity.

Temperature (℃)   Humidity (%)
5.0   30.0   ALARM   DOOR   USB
SET/MUTE   PRINT   LIGHT

■ LBA Forming Technology

The world's leading fourth generation foaming agent

More uniform density, Better insulation, more
energy-saving.
More reasonable foaming layer design, larger interior
storage space.

■ Micro-channel condenser

Velocity (m/s)
0.00000   1.0000   2.0000   3.0000   4.0000   5.0000
Temperature (C)
35.000   36.600   38.290   39.800   41.400   43.000

Compressor overheating protection, effectively improving the service life
of the core part.
Powerful heat dissipation for condenser, heat exchange capacity increase
by more than 20% than common copper tube fin condenser of other suppliers.
